

Virtual Reality Experience - Application Instructions

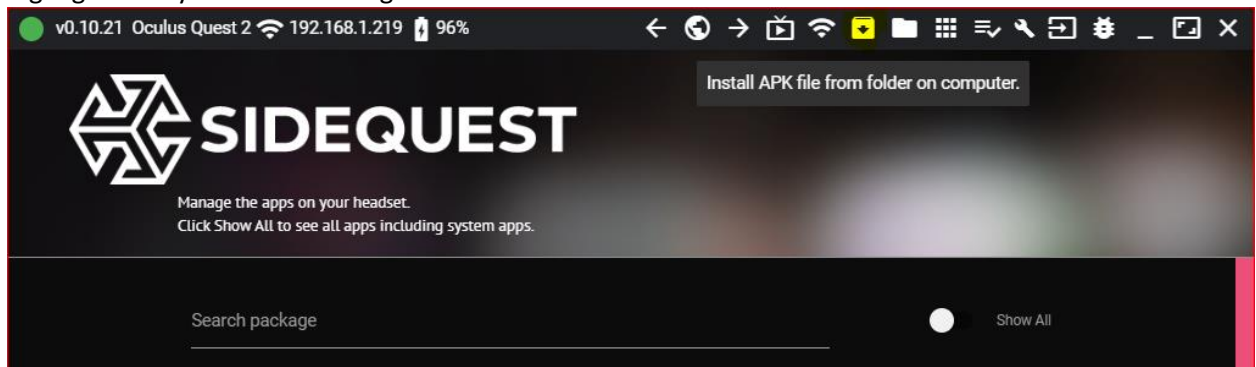

Before you start

The following items are required to install the “Did You Notice?” App.

1. An Oculus Quest or Oculus Quest 2
2. The Oculus App running on a mobile device (this was used to setup your Quest the first time)
3. A PC or a Mac
4. A USB-C or USB to USB-C cable for connecting the Quest to your computer
5. An Internet connection

Instructions on downloading and installing the “Did You Notice?” App onto the Oculus Quest

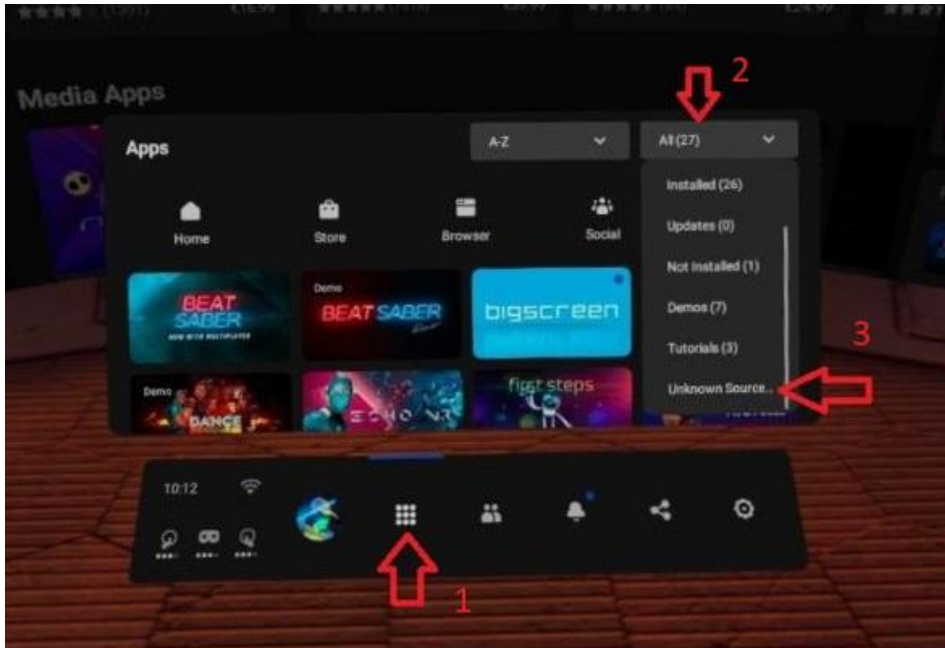

1. Download the “Did You Notice?” application to your computer by clicking the link https://digitalbuckeye.com/clients/OCALI/ocali_release.apk - please note the location
2. Setup and install the application SIDEQUEST by following the instructions here <https://sidequestvr.com/setup-howto>
3. After following all the instructions in step 2 and with your Quest connected to your computer, launch the SIDEQUEST application and click the ‘Install APK file from folder on computer’ button highlighted in yellow in the image below.

4. After clicking the ‘Install APK file from folder on computer’ you will be asked to choose a file. Please select the ocali_release.apk file you downloaded in step 1.

Start the “Did You Notice?” App on the Quest/Quest 2 headset

1. Select the Apps button
2. Choose the application type dropdown
3. Select ‘Unknown Sources’
4. Select ‘Did You Notice Release 1.0
